Glasgow
G52 1EE

7 June 2022

Dear Sir/Madam,

Incident 20220120-1333 (crimes committed in vaccination centres reported to Govan Police Station on 20 Jan 2022)

Please find enclosed Freedom of Information Requests to add to evidence already submitted in regard to the above incident number.

Since the Scottish Government can provide no “evidence and scientific data pertaining to COVID-19” and Public Health Scotland has not, and is not, “aware of any specific studies” describing the isolation of the SARS-COV-2 virus without first combining with any other source of genetic material ie. monkey kidney cells” etc., the only logical conclusion is that there is no new virus; therefore there is NO MEDICAL NECESSITY for giving covid injections into anyone.

This is of the utmost seriousness since people are being seriously maimed (even killed) on the back of this fraud, and the NHS is operating in a most inhumane manner – some consultant doctors have even threatened to take desperately-ill patients awaiting transplant off waiting lists if they refuse to take the covid injections. It’s as if the Nuremberg Code had never been written.

The Scottish Government is in the process of passing *more* inhumane legislation - in the form of the Coronavirus (Recovery and Reform) (Scotland) Bill. Once passed, Nicola Sturgeon (or whoever is First Minister) will have PERMANENT powers to: close schools, courts, businesses and to forcibly isolate men, women and children in quarantine facilities. ie. we will permanently live in a state of fear as to when we will be incarcerated next and when vaccine passports will be ramped up next until every aspect of our life is conditional on taking prescribed government injections.

Below are the latest official UK Government figures of injuries and deaths shortly after vaccination.

Please provide me with a progression update of what inquiries you have made to date in relation to incident report 20220120-1333.

Yours faithfully

Moira Brown
